Buying Options	Purchase	
NABCEP certified?		
Other services	PA AEPS Registration (for S-RECS), Registration in Other States (for S-RECs)	
Additional info	<p>REPOWER by Solar Universe of Northeast PA is an independently owned and operated solar sales and installation franchise company, specializing in residential and small commercial solar photovoltaic systems.</p> <p>Each system is custom designed to match your energy needs. We install only the highest efficiency and cutting edge technology, and choose manufacturers that have stable, proven products that can stand behind their 25-year warranties. Solar Arrays can be roof or ground mounted.</p> <p>Roof Mount Composition Shingle applications use flashing kit roof attachments at every point of roof contact. The flashing kit's integrated design incorporates both structural and waterproofing features into a single assembly.</p> <p>Ballasted roof mounts are heavy-duty construction yet light on the roof. An optional roof pad is also available to protect the roof.</p> <p>Heavy-duty ground mount components, combined with steel piping, create durable and long-lasting structures that handle all site and terrain challenges as well as extreme wind and snow loads.</p> <p>We never waive from our core principles of quality, service, safety and consistency. Our personal workmanship warranty is 10 years, which is the longest and best in the solar industry. We are very proud of our 100% satisfied customer rating. We are very meticulous about our work and take great pride in our installs. We treat each property with the utmost respect.</p> <p>Customer satisfaction is, has always been, and will continue to be, our number one priority.</p>

NABCEP certified?	Yes: Mark Connelly	
Other services	Energy Audits	
Additional info	<p>RER Energy Group is a national leader in solar energy based in Reading, PA. We design, build, finance and sell cost efficient and quality solar energy systems to mid-sized commercial and non-profit organizations. Our mission is to educate clients on optimal ways to obtain solar energy savings. We pursue our mission by focusing on the client's needs and working relentlessly to find innovative solutions that lead to more savings through solar.</p> <p>RER Energy Group has developed the largest community solar array in Iowa, the largest school district array in New York, was recently ranked the #1 commercial solar developer in Pennsylvania and is one of the Inc. 5000 Fastest growing companies in America.</p> <p>To date, we have developed more than 40 Megawatts (MW) of solar arrays for over 100 organizations, throughout the United States and Mexico. To fund these projects we have assisted our clients in securing more than \$30 million in State and Federal grants and incentives.</p> <p>We partner with a range of financial investors and work hard to provide appropriate returns to these investors while still maximizing our customer's savings with solar. Our commitment to 'do both' -- provide returns to investors AND maximize savings for solar clients - has led us to develop innovations in financing structures, platforms and partnerships. These efforts were recognized with a prestigious SunShot grant from the Department of Energy through our sister company, Sunvestment Energy Group.</p>
